# THE LEADING TRADE FAIR FOR INNOVATIVE ENERGY SUPPLY

The topics of energy supply and efficiency are now shaping our modern society more than ever before and are extensively impacting on commercial success in addition to their effects on our environment.

As a specialised trade fair for decentralised energy supply, EnergyDecentral offers a unique platform in the agricultural sector together with EuroTier.

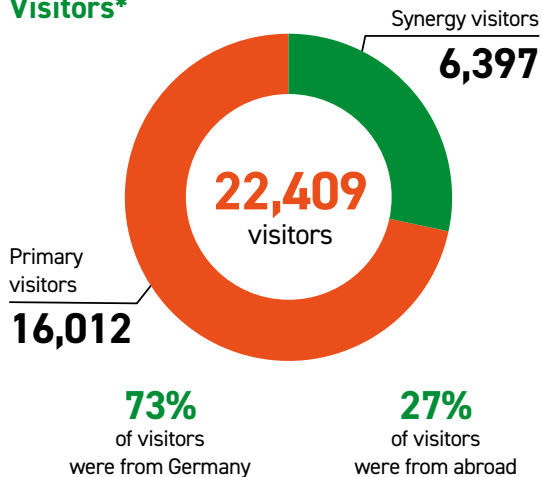

This is where information is obtained, discussions are undertaken and investments are made. Benefit from the know-how of international industry authorities and discuss current topics, trends and strategies with experts.

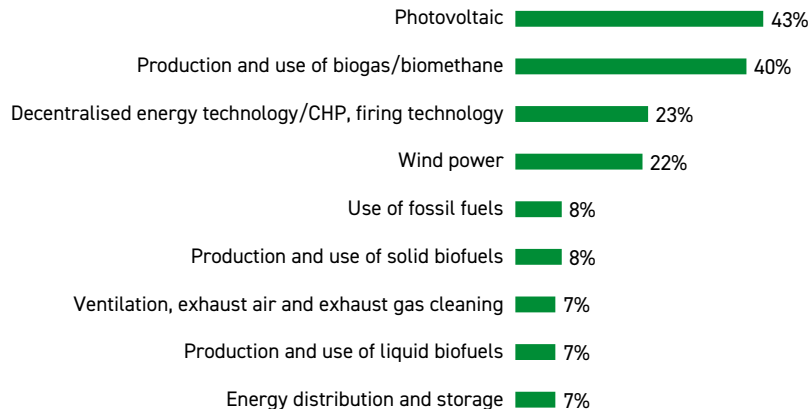

## Open network and professional voice

As the organiser of EnergyDecentral, DLG fosters progress in the global agricultural and food industries with knowledge, quality and technology transfer.

## Visitors\*

## Most important areas of investment\*

# TEN REASONS FOR PARTICIPATING

Leading trade fair  
for decentralised  
energy supply.

Platform for  
future decentralised  
energy supply issues.

Current  
market overview  
from A to Z.

Perfectly combined with  
EuroTier, the world's  
leading trade fair for profes-  
sional animal farming:

+ 2,000 exhibitors  
+ 120,000 trade visitors

**Professional audience:**  
around **70%** of visitors are  
decision-makers.

**Unique customer potential:**  
56% of visitors  
are from the agriculture  
and forestry sectors.

**High investment intention  
of customers:**  
over 30% are planning to  
invest in generation systems  
and replacement parts.

**Worldwide reporting on  
both trade fairs:**  
over **1.000** journalists,  
bloggers and influencers  
from more than  
**50** countries.

**Top-class technical  
programme:**  
in cooperation with  
VDMA PS and the  
German Biogas Association.

**Innovation competition  
with high media impact.**  
**The platform for  
innovations.**

# EXHIBITION PROGRAMME

- Biogas and biomethane
- Wind power, photovoltaic and agrivoltaics
- Solid fuels
- Biofuels
- Decentralised energy technology (cogeneration, CHPs)
- Transport and storage
- Safety technology
- Recycling and disposal systems
- Energy storage devices and hydrogen
- Measurement and control technology
- Carbon farming, carbon net zero
- Energy resource trading and project planning

Present your innovations, offer professional inspiration and gain new customers and investors. We look forward to seeing you from 12 to 15 November!

## AWARD-WINNING INNOVATIONS

### Innovation Award in gold and silver

The innovativeness of EnergyDecentral is underscored very clearly with the presentation of the Innovation Awards. The

Innovation Awards are presented every two years during the trade fair in Hanover.

### Agrifuture Concept Winner

Livestock farming concepts of relevance to and with the potential to improve good professional practice will be dubbed DLG-Agrifuture

Concept Winners in the future. These involve concepts and visions that have not yet achieved market maturity but are still in the development phase.

# WIDE RANGE OF OFFERS WITH STRONG PARTNERS

Thanks to numerous synergies between the energy sector and the agricultural industry, EuroTier is the perfect addition to EnergyDecentral.

EnergyDecentral is the platform for future decentralised energy supply issues. Benefit from the know-how of our major partners in the context of our technical programme, for instance.
